## Summary

Passionate **Full Stack Developer** with over **2+ years** of experience in building scalable web applications using modern frameworks and cloud technologies. Proficient in **React.js**, **Node.js**, and MongoDB, with hands-on expertise in creating dynamic **UIs**, **RESTful APIs**, and serverless solutions using AWS. Committed to **Agile** methodologies and cross-functional collaboration, with a focus on delivering robust software solutions that meet business objectives.

## Work Experience

### Mind Spark Technology

*MERN Stack Developer*

Pune, India

Jun 2022 - Present

- Optimized **React.js** with **Redux** to achieve a **40%** performance boost, enhancing user engagement.
- Delivered automated **Nodemailing** services and real-time tracking with **Socket.io**, improving tracking accuracy by 30%.
- Implemented secure **authentication** and **authorization** using **JWT** tokens, reducing unauthorized access by **15%**.
- Developed and optimized highly responsive **APIs**, reducing backend response times by **35%**.

## Skills & Qualifications

**Languages:** JavaScript (ES6+), C++

**Frontend:** React.js, Redux, HTML, CSS3, Tailwind CSS, Typescript, React-Query, Bootstrap

**Backend:** Node.js, Express.js, REST APIs, MongoDB

**Tools:** Git, GitHub, Postman, AWS (EC2, Lambda), Vercel, Render, VS Code

**test:** React Testing Library

**Other Skills:** UX/UI, CI/CD Pipelines, Code Reviews,

## Education

**TC College, Baramati**

*Bachelor of Science in Computer Science*

Jun 2019 - Apr 2022

CGPA: 8.83/10

## Projects

### ZealShop - Online Clothing Store

Mar 2022

- Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, REST APIs.
- Developed RESTful APIs, reducing server response time by 30%, enhancing user experience.
- Integrated NodeMailer and Cloudinary for faster email delivery and cloud media storage.
- Engineered React Hooks for user registration, login, and cart management.

### ProTrack - Business Management Tool

Jan 2022

- Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, REST APIs.
- Utilized LocalStorage and API integration to manage project status updates efficiently.
- Implemented real-time notifications using Toast to enhance user experience.

## Achievements

- Completed MERN-Stack course from CodeHelp.in.
- Earned certifications in Data Structures & Algorithms (JS and C++) on HackerRank.
